

Environmental policy statement

Golden Lane Housing (GLH) is a registered charitable organisation committed to providing housing for people with a learning disability.

We currently own and manage over 700 homes across the country. We employ over 50 members of staff who operate from our Head Office in Manchester and home based across England and Wales.

Our vision is a world where everyone with a learning disability has opportunities to access good quality housing that meet their needs. Our mission is to provide a quality home around which individuals with a learning disability can build their lives.

GLH recognises that good environmental management must be an integral part of its business strategy and therefore should be integrated into all operations and activities wherever possible.

This Environmental Policy Statement demonstrates our strong commitment to environmental sustainability and to the promotion of this strategy to all employees, customers, contractors and other stakeholders, to which this policy statement will be freely available. We are committed to the continual improvement of our environmental performance and to the prevention of pollution and environmental impact from our business activities. We are also committed to meeting, and where possible exceeding, the requirements of environmental regulations, legislation and codes of practice, relevant to our organisation.

Alastair Graham
Director, GLH

Our environmental goals

Our environmental goals fall under three categories - people, places and passion. These goals will inform our annual environmental targets.

People

We will provide advice and support to our staff and customers on how to reduce their environmental impact and live and work more sustainably.

Places

We will invest in the homes we provide and the offices we work in so they are comfortable affordable and sustainable.

Passion

We will continually improve our environmental performance and reduce our environmental impact.
