Golden Lane Housing

This is an important update about what Golden Lane Housing is doing to keep tenants safe.

A dangerous building material called RACC concrete has been on the news.

This type of concrete was used to build homes between 1950 and 1980.

New tests have shown that RACC concrete may make some buildings unsafe.

Important update

September

2023

Golden Lane Housing is carrying out important checks on a small number of properties to make sure that all homes stay safe.

Golden Lane Housing

If any RACC concrete is found in your home we will carry out repairs to keep your home safe.

If you would like to speak to someone at Golden Lane Housing,

Phone: 03000 003 7007 option 1 to speak to a Keith Henderson, Head of Assets.
